

#Description: Course notes

100% coverage != bug free code

- Unit Testing
 - find bugs early
- Integration testing
 - catch bugs at composability level
- path dependence
 - risks sandwich / Mev
- path independence

Int256.min not be cast to int256.max as it will be int256.max +1

Math heavy functions always good fuzzing targets

MAKE A LIST OF INVARIANTS

Good fuzzer > quality of invariants & limitations of harness.
